

Occupy Wall Street

Henk Beerepoot, 'Melita Park', 27/10/2011

Dear Friends,

You may have read 'Esau's Mandate' which I sent you the other day. Today I like to show you the corporate relevance of this article in what is happening in Wall Street and around the world which is a reflection of that which occurs within each of those Father wakes up into His Rest

The 'Occupy Wall Street Movement' started some 5 weeks ago by artists and it is growing at this moment into a global protest against financial greed. To express their oppression of their 'human needs', the protesters have adopted the slogan 'We Are the 99 Percent'.

In 1621 the Dutch, as one of the tribes of Israel, started a trading firm in the New World called: 'The Dutch West India Company'. This was the start of a commercial activity, growing out to what we presently know as 'Wall Street' and which ends now in 2011, 390 years later, with the 'Occupy Wall Street Movement'. Central to this 390 years duration of economic development was the 'trust in money' of the people of Israel. Money receives its trust, or value, from those paying the same in taxes upon fear of 'non protection'¹. This value is illusionary, based upon the idea of 'self'. The only value, and thus security, in this realm is our 'trust' in our Sovereign Father. The 390 years of expressing trust in money rather than trust in our Father marks therefore 'Rebellion'. This is confirmed in Biblical numerics as the number 390 signifies the 'Fullness of Rebellion', which is the fullness of trust in 'Self'.

Art-ists are those who practice 'human workmanship' and, as they started the movement, they set the stage for the trust in 'Self' on which they rely. Though, as much as they are trusting in their own ability, they are driven by their Heart as they 'pro-test', which means: 'they witness (*test*) before (*pro*)' Esau of their Heart.

The Protesters testify that they are the 99% and indeed they are. In Biblical numerics the number 9 signifies the '*conclusion*' of a matter. There are 2 nines in 99, which indicates the '*conclusion of the duality*', thus the conclusion of the duality or separation of 'Flesh' and 'Spirit'. The 99 is in want of the 'One', who is the manifested Son Yahshua, to make up to the whole. He 'belongs to them, who are '99', as he is off the flesh. When He is added on to them they are the 100 (flesh and spirit together, as the manifested Father and so...True Value...).

When they come to see that they are the 1(% missing), as the Son lives in them, they know that the fight for their 'human needs', has led them to see 'True Value' not through their ability but through their disability of 'self'. They come to see that the 1 was not to be gained through the elevation of 'self', but through its death. For that purpose they will come to see, as their father Jacob, the Face of Elohim in those who oppressed them. They will lose their fight, but in losing they win and so will they enter into His Rest into 'Liberty Park'. A Rest which rests them into the fullness of the 100%, into 'divine perfection'. A Rest wherein they see a New Economy emerging which is empowered by the old, an Economy based upon 'Giving', the 'Giving Away of... Self...'.

And Esau? Esau will then come to realise that he has broken the yoke (of the 99%) from off his neck. He comes to see that Wall Street or the Financial district, known in the seventeenth century as the 'New Amsterdam Settlement', will live up to her name as 'New Amsterdam', which means: the New Dwelling place (*ster*) where Access to Life (*dam*) is Produced (*Am*)².
